EDUCATION

National Institute Of Technology, Kurukshetra — **Kurukshetra, Haryana, India**
B.Tech (8.67-cgpa) — *Oct 2020 - Jun 2024*

Maharashtra State Board — **Ambajogai ,Maharashtra , India**
XII — *Feb 2019 - Feb 2020*

TECHNICAL SKILLS

Programming Languages: C, C++, Java17, Python, HTML5, CSS3, JavaScript(Es6+), Typescript, SQL
Frameworks and Tools: React.js, Spring Boot, Jsp ,Servlets, Next.js, Node.js, Express.js, OracleDB, Gitlab, SVN
Others: Data Structures, Algorithms, Low-Level-Design, AWS, Google Cloud, Agile,DBMS,OS,Docker,CI-CD

WORK EXPERIENCE

Associate Software Engineer — **Oct 2024 - Present**
Infor, Hyderabad, India

- Worked on the Time and Attendance (pay calculation) module of Infor Workforce Management, enhanced features like custom Scripting extensions, geolocation-based employee clocking, and time-off workflows using Java, Spring, REST APIs, and SQL, improving payroll accuracy and flexibility for customers.
- Fixed around 50–60 critical bugs across the enterprise application, performing deep root-cause analysis, debugging, and regression testing, which improved overall system stability and reduced system downtime.
- Contributed to reporting solutions with IBM Cognos by building and optimizing timesheet and payroll-related reports, ensuring compliance and improving reporting performance for large-scale employee datasets.

Software Developer Intern — **May 2024 - Oct 2024**
Zipy.ai, Pune ,Maharashtra ,India

- Strong expertise in developing session summary APIs: Utilized Node.js and Vertex AI on Google Cloud Console to create APIs that deliver comprehensive session summaries of user interactions.
- Experienced in integrating Slack with products: Implemented APIs in Java Spring Boot to seamlessly integrate Slack with the product, improving communication and workflow efficiency.
- Proficient in converting rrWebevents to videos: Leveraged rrweb and Node.js to transform web events into MP4 videos, enhancing data accessibility and usability results in user engagement and session details.

Software Developer Intern — **Jan 2023 - July 2023**
AI4M, Pune, Maharashtra

- Implemented data visualization techniques to present key performance indicators (KPIs) on the dashboard, resulting in a 30% improvement in the trace of the company's site in data analysis and efficiency for clients.
- Collaborated with cross-functional teams to gather requirements and conduct user testing, ensuring the dashboard met client , needs and achieved a 95% adoption rate. Developed a user-friendly dashboard using AWS and React, increasing client satisfaction by 20%.

PROJECTS

- **CampusPath-Your University Guide :** Developed a college predictor web application using React.js, Node.js, Express, and Typescript, allowing users to input exam ranks and percentiles to generate predicted college admissions, improving guidance and decision-making for students. Try it!
- **MealMate-Food Ordering App:** Developed a full-stack food ordering application using Spring Boot, Hibernate, MySQL, and React.js, implementing secure user authentication, product catalog, shopping cart, and order management features, streamlining the online food ordering process. Github
- **FeatureFlick App :**Successfully implemented real-time face detection using TensorFlow, optimizing accuracy and efficiency for image processing tasks in diverse environments and scenarios. GitHub
- **EasyRide-Car Renting Platform:** - Developed a full-stack car rental app using Spring Boot, Hibernate, MySQL, and React.js with secure REST APIs, role-based authentication, optimized database schemas, and responsive booking workflows to streamline rentals and improve user experience. GitHub

ACHIEVEMENTS

- DSA problems solver on Leetcode Link
- Skyscanner Software Developer challenge Link

EXTRACURRICULAR ACTIVITIES

- **PLACEMENT COORDINATOR** – NIT KURUKSHETRA - Aug 2023 - Jul 2024
- **TECH TEAM LEAD**– (IIC) NIT KURUKSHETRA - Jul 2023 - Jul 2024
